With FRONT of card in your LEFT hand, lay at 3" mark on cutter. CUT from 2-1/2" DOWN to 4-7/8"

TURN CARD 90 degrees to right. (Card Front is at TOP.) Lay at 3" mark. CUT from 3" UP to 5/8"

Put adhesive or a Glue Dot on FRONT of card in TOP RIGHT Corner.

GET READY!!! It is now time for our "TWIST" to our Fun Fold. Take top right corner and bring down and forward; flatten and crease.

That's it! How easy is that!?! Now you just need to decorate.

I used All Things Fabulous BUNDLE. You don't have to color as the stamp set is a two-step stamping set. And what about the doily on the front of the card... AWESOME!!! It is in the matching dies, Fabulous Florals. LOVE It!

Now let's make the bookmark.

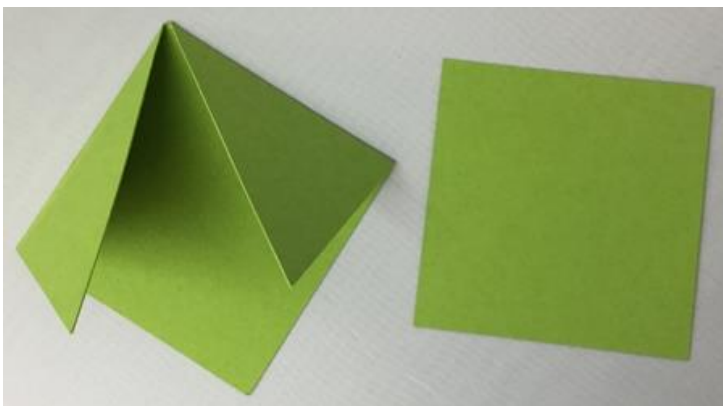

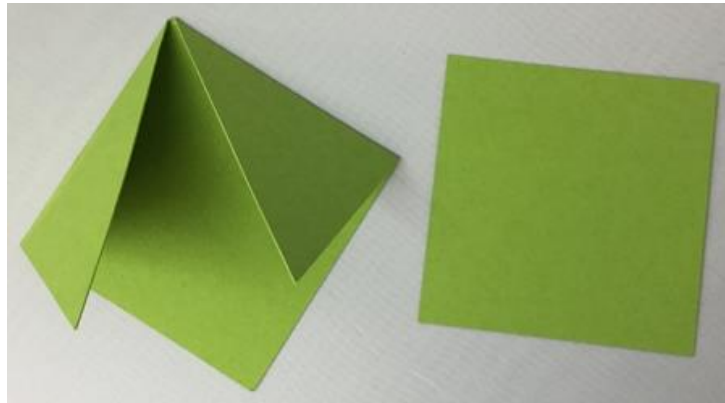

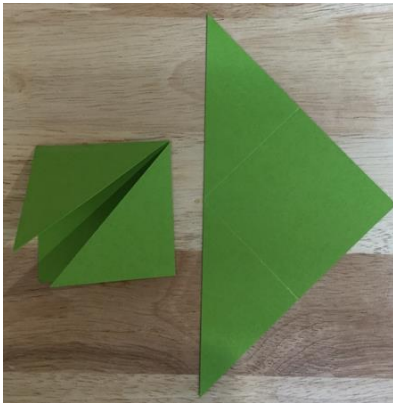

Take your 5-1/4 square piece that has been scored both ways. Put opposite corners in your cutter gutter and slice in half.

Now you bring the two triangle corners together and press down. Adhere your smaller, stamped layer on top of this. Wha-la! you now have a simple, cute bookmark!

I made this card several years ago in a shoebox swap. But it was Wendy Lee's card that inspired me to bring it back! She did not make a top layer, but I like it better with the top layer. Either way, It's a FUN card to make to get that WOW Factor!
