Flip your DSP over end-to-end to score at 1-1/4 + 5 + 10-1/4

Fold in the right side first; then fold over the left side at the 5" score; then fold BACK the 1-1/4 scored line. Wha-la! Decorate as desired.

Supplies needed: Vertical/Portrait Layout

Same as above, but with design going up and down.

Fold as above: right side in; left folded over at the 5" score; then fold the 1-1/4 score up/back.

NOTE: Even though the folds do NOT meet together like an actual gatefold, it still resembles a gatefold card.

ENJOY!
